P2 Hire Offer

RAPID WRITER

The AJ-HRW10 P2 Rapid Writer is a simple, easy-to-use workflow solution for backing up P2 content. With slots for two removable 3.5-inch hard disk drives (HDDs) and a built-in AJ-PCD35 five-slot P2 memory drive, the HRW10 automatically transfers data from up to five P2 cards to RAID-1 mirrored or JBOD-configured disk drives. Whether used in production or for live events, this flexible workflow tool puts the critical back-up function well within the grasp of even the least technical members of a production team.

P2 CARDS

Make Using P2 Easier!

Top Teks has added hiring P2 media kits to the range of services they provide. A basic kit will consist of 10 32Gb P2 Cards and a Rapid Writer, Flight Cased and ready to go. 5 cards can typically be downloaded in less than 1/6 of real time.

Included in the Package:

The rapid writer (RW) has slots for two drives at a time. 4 caddies will be provided to mount the drives (typically 1TB available to purchase, not a hire item). The RW can be powered via V lock battery or mains (battery kit not provided). Then ten 64Gb P2 Cards. The RW offers an instant mirrored drive so a back up is available

PRICES:

Basic Kit: £100.00 + VAT per day.

Basic Kit: £400.00 + VAT per week.

Rapid Writer Stand Alone: P on A

64Gb Card Basic Kit: £150.00 + VAT per day.

The reusable 32GB E-Series P2 card offers recording of video, audio, and metadata in any environment, even in challenging conditions of extreme temperature range, shock, and vibration. Its memory recording structure enables transfer of recorded content at faster speeds (up to 1.2Gbps) than professional solid-state memory cards offered by other manufacturers. This super-fast 1.2Gbps transfer speed means you can edit, archive and complete your project faster than ever.

64Gb Card Basic Kit: £600.00 + VAT per week.
